SUMMARY

Enthusiastic Computer Science undergraduate with strong skills in **Machine Learning, Python, and data analysis**, seeking a Machine Learning Internship. Passionate about building intelligent systems, analyzing data to extract insights, and solving real-world problems using predictive models. Quick learner with hands-on project experience in developing and evaluating machine learning models, along with strong problem-solving and analytical abilities.

SKILLS

- Programming: Java, Python, C
- Core Concepts: Data Structures & Algorithms
- Technologies: Machine Learning, NLP
- Databases: MySQL, Oracle
- Tools: Git, GitHub
- Other: Debugging, Testing, Problem Solving
- Data Handling & Data Visualization: Pandas, Numpy, Matplotlib, Seaborn
- ML Libraries: Scikit-learn, Tensor flow
- Mathematics & Statistics

PROJECTS

AI Chatbots using Machine Learning

- Developed 3 chatbots for interview prep and queries
- Used NLP for intent-based responses
- Improved response efficiency by 30%

Heart Attack Prediction System

Technologies: Python, Pandas, NumPy, Scikit-learn

- Developed a machine learning model to predict heart attack risk using healthcare data.
- Performed data preprocessing, feature selection, and normalization.

- Applied classification algorithms and evaluated performance using accuracy, precision, and recall.
- Visualized data insights to identify key health risk factors.

Student Placement Prediction System

Technologies: Python, Pandas, NumPy, Scikit-learn

- Built a predictive model to analyze student placement outcomes based on academic data.
- Conducted data cleaning and exploratory data analysis (EDA).
- Implemented classification techniques and improved model accuracy through feature engineering.
- Identified key factors influencing student placements.

EDUCATION

B.Tech in Computer Science Engineering

Sri Vasavi Engineering College (JNTU)

2024 - Present | CGPA: 8.9

Intermediate (MPC)

Sri Chaitanya Junior Kalasala, Vijayawada

2022 - 2024 | 95.8%

SSC

Vidya Vikas School

2022 | 94.5%

CERTIFICATIONS

- Oracle Certified Foundations Associate
- AWS Cloud Practitioner (CLF-C02)
- Machine Learning - NPTEL
- Cloud Computing - IBM
- Java (Basic) - HackerRank
- Git & GitHub - GeeksforGeeks

ACHIEVEMENTS

- Solved 100+ problems on LeetCode
- Earned 50 Days Consistency Badge
- Top 5 Finalist - Tech Europia (AI Tools Competition)

- Participant - Smart India Hackathon, Microsoft Imagine Cup

WHY I FIT THIS ROLE

- Strong foundation in Machine Learning concepts, Python, and data analysis
- Experience working on real-world ML projects like prediction systems
- Ability to quickly learn and adapt to new tools and technologies
- Good problem-solving skills with a strong analytical mindset
- Experience in data preprocessing, model building, and evaluation
- Strong team collaboration and debugging skills
- Passionate about building intelligent systems and improving model performance
