SUMMARY

Enthusiastic Computer Science undergraduate with strong skills in **Java, object-oriented programming, and backend development**, seeking a Java Developer Internship. Passionate about building scalable applications, solving real-world problems, and developing efficient backend systems. Quick learner with hands-on project experience and strong problem-solving abilities, eager to contribute to team-driven software development environments.

SKILLS

- Programming: Java, Python, C
- Core Concepts: Data Structures & Algorithms
- Databases: MySQL, Oracle
- Tools: Git, GitHub
- Other: Debugging, Testing, Problem Solving
- Backend & Frameworks: spring boot, awt components

PROJECTS

Student Exam Sitting Arrangement System

- Developed using Java and Oracle Database
- Automated seating arrangement for 100+ students
- Reduced manual effort by 50%
- Improved accuracy and efficiency

Teacher-Student Management System

- Built a system to manage 50-200 student records
- Implemented secure authentication features
- Improved data organization and access speed

EDUCATION

B.Tech in Computer Science Engineering

Sri Vasavi Engineering College (JNTU)

2024 - Present | CGPA: 8.9

Intermediate (MPC)

Sri Chaitanya Junior Kalasala, Vijayawada

2022 - 2024 | 95.8%

SSC

Vidya Vikas School

2022 | 94.5%

CERTIFICATIONS

- Oracle Certified Foundations Associate
- AWS Cloud Practitioner (CLF-C02)
- Machine Learning - NPTEL
- Cloud Computing - IBM
- Java (Basic) - HackerRank
- Git & GitHub – GeeksforGeeks

ACHIEVEMENTS

- Solved 100+ problems on LeetCode
- Earned 50 Days Consistency Badge
- Top 5 Finalist - Tech Europia (AI Tools Competition)
- Participant - Smart India Hackathon, Microsoft Imagine Cup

WHY I FIT THIS ROLE

- Strong foundation in Java and object-oriented programming concepts
- Experience working on real-world projects using Java and backend technologies
- Ability to quickly learn and adapt to new frameworks like Spring Boot
- Good problem-solving skills with knowledge of data structures and algorithms
- Experience in database handling using SQL and JDBC
- Strong team collaboration and debugging skills
- Passionate about building scalable and efficient backend applications
